

# Atomic 100 | Periodic Table of Donors

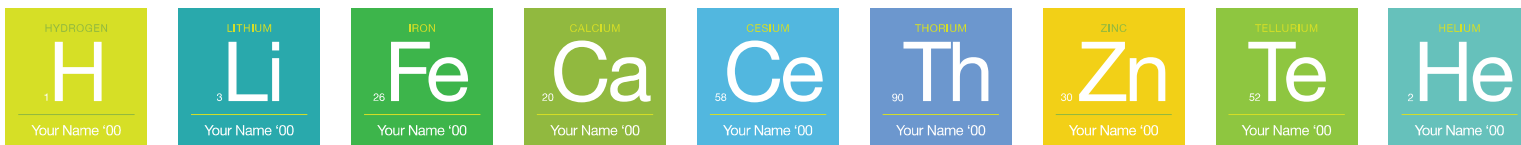

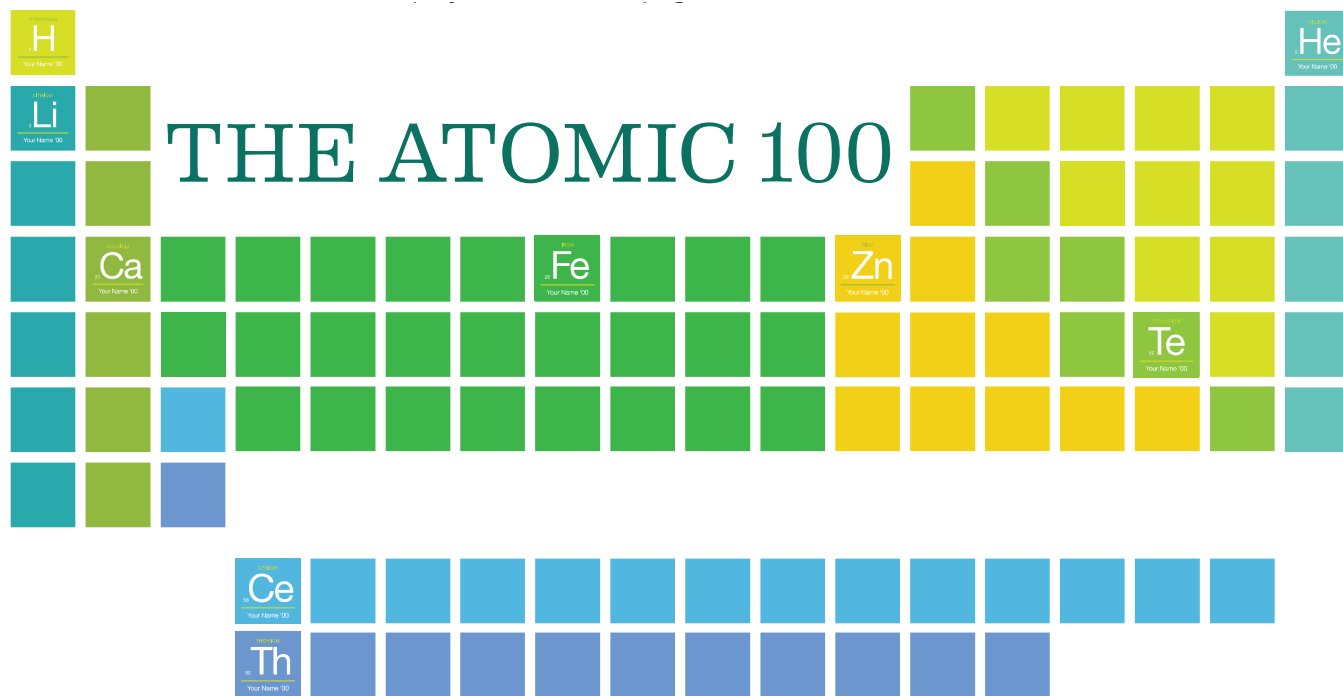

## Join Us

Join us as a member of the Bronx Science Atomic 100! The Atomic 100 is our most prestigious leadership giving society, where alumni have pledged to give at least \$10,000 a year for ten years. Together, the Atomic 100 will help raise at least \$10 million for Bronx Science and will have a transformative impact on the school.

As part of recognition, we are building an Atomic 100 Periodic Table of Donors. This wall of honor will hang in the school and each member of the Atomic 100 will be its own element on the periodic table. It does not get more Bronx Science than that.

## The Wall

A sample of the full Periodic Table of Donors is below with examples of how each element type will be colored. Share with us how you would like *your* element to be displayed on the next page.
